

Wisetech: How to unbind your devices ?

Application Wisetech

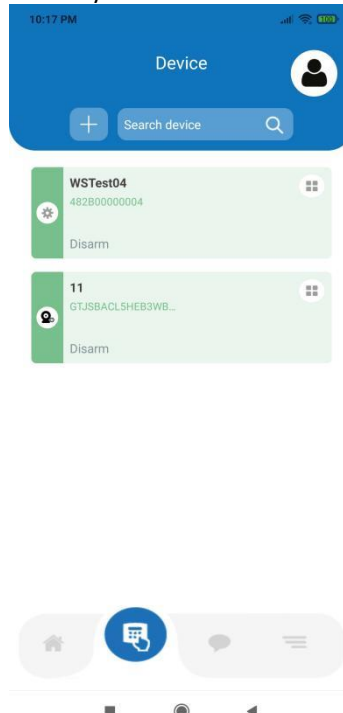

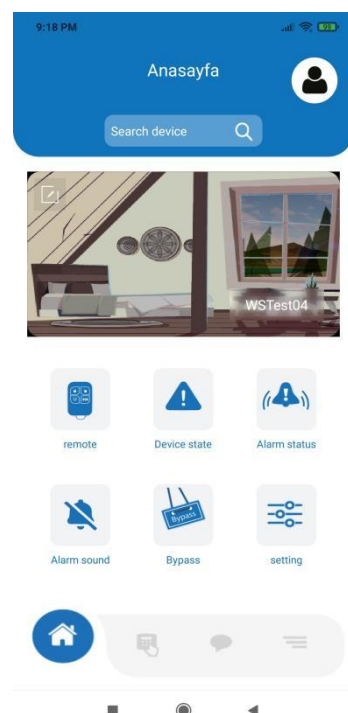

Install application from Google play <https://play.google.com/store/apps/details?id=com.klx.wisetech>

Operation steps

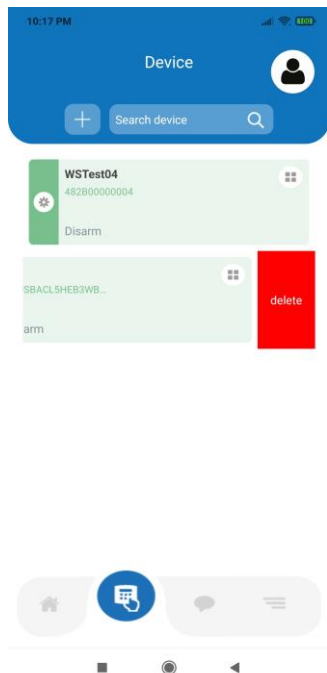

Launch application, login your account:

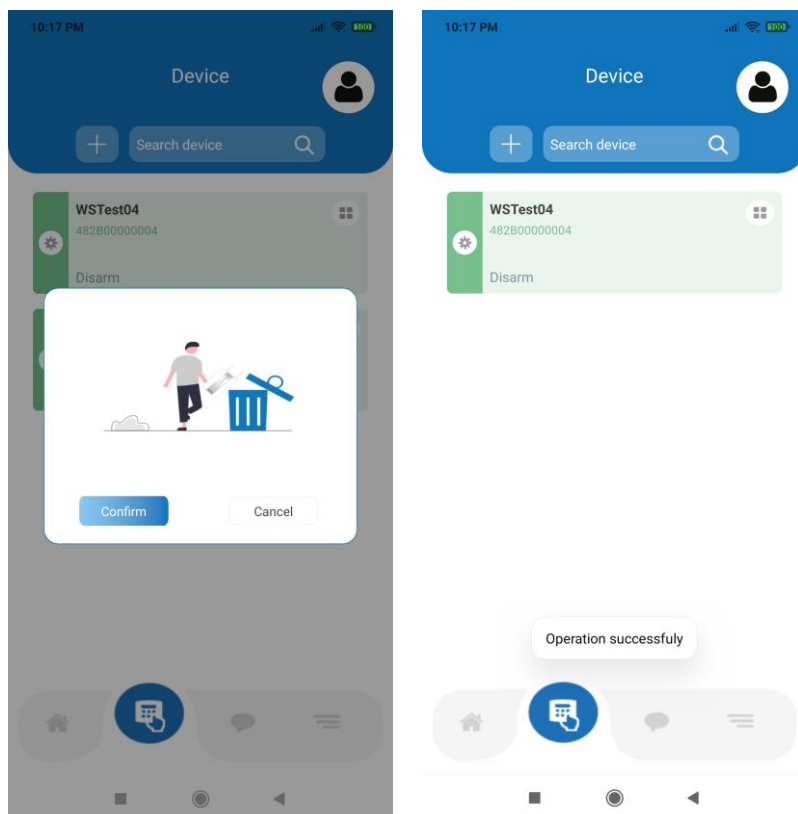

Press second button at bottom bar, to view your devices bound.

Then slide item to left which you want to delete, and press “delete” button.

Press “Confirm” button, this device will be unbound.

Note:

Unbound operation can **NOT** be undone. You should add them again if you want to control them. All device information will be keep on device itself.
